### Sample Complete Streets Resolution #3

**WHEREAS**, “Complete Streets” promotes streets that are safe and convenient for all users, including pedestrians, bicyclists, public transportation riders, and motor vehicle drivers of all ages and abilities; and

**WHEREAS**, streets that support and invite multiple uses, including safe, active, and ample space for pedestrians, bicycles, and public transportation, are more conducive to the public life and efficient movement of people than streets designed primarily to move automobiles and trucks; and

**WHEREAS**, promoting pedestrian, bicycle, and public transportation travel as an alternative to automobile reduces negative environmental impacts, promotes healthy living, is less costly to the commuter, and will increase the capacity and efficiency of the road network; and

**WHEREAS**, the Federal Highway Administration has confirmed that designing the street with pedestrians in mind significantly reduces pedestrian risk. The development of a more complete transportation network will eliminate hazards and improve safety for pedestrians and cyclists, who now make up more than 12 percent of all traffic fatalities nationwide; and

**WHEREAS**, implementation of “Complete Streets” policies can create immediate jobs through labor-intensive and small scale projects, many of which can be accomplished quickly; and

**WHEREAS**, “Complete Streets” projects not only aid economic recovery by creating jobs, they can help create complete transportation networks that provide citizens with transportation choices that are easier on tight family budgets; and

**WHEREAS**, “Complete Streets” are supported by the Institute of Traffic Engineers, American Planning Association, and many other transportation, planning, and public health professionals; and

**WHEREAS**, “Complete Streets,” as incorporated into our current, fiscally responsible budget, are a wise investment in our community and represent more efficient and equitable spending of public dollars.

**NOW, THEREFORE BE IT RESOLVED** that the \_\_\_\_\_ City Council strongly endorses a Complete Streets approach for the City of \_\_\_\_\_ to enhance transportation options and to improve quality of life for the residents of \_\_\_\_\_. The City Council urges the Mayor’s office and relevant governmental agencies to adopt and implement “Complete Streets” policies and practices that:

- Serve as guiding principles to design, construct, operate, and maintain the City’s roadways to promote safe and convenient access and travel for all users and people of all abilities;
- Create a comprehensive and integrated transportation network;
- Apply to both new and retrofit projects;
- Are incorporated except in unusual or justifiable circumstances;
- Recognize the need for flexibility and identify “Complete Streets” solutions that fit the context of the community.
